3 Select NFS version

4 Name and configuration

5 Host accessibility

6 Ready to complete

Datastore name: NFS-Datastore

NFS Share Details

Folder: /mnt/vmshare
E.g. /vol/vol0/datastore-001

Server: 192.168
E.g. nas, nas.it.com or 192.168.0.1

1 If you plan to configure an existing datastore on new hosts in the datacenter, it is recommended to use the "Mount to additional hosts" action instead.

Access Mode

☐ Mount NFS as read-only
